The Day Mom Turned into a Dragon

Most of the time, my mom is very tender and loving. However, one day, when my siblings and I misbehaved, she transformed into something unrecognizable!

We were very scared, but when she finally returned to herself, we could see that my mom can also be overwhelmed by her emotions - just like us! And that it is also possible to forgive and move on.

I invite you to read this story; maybe you'll find that my family is very similar to yours.

I LOVE YOU, ALWAYS

This story tells the dialogue between a baby bear and his mother.

He asks her if she loves him always, no matter what he does or says—like when he's angry because he loses a game, or when he feels shy around strangers and doesn't want to leave her side.

The mama bear, unconditionally, shows him that yes, she does and always will.
This is real love.

¡PATIENCE!

Eggs, sugar, milk, and vanilla. Done!
Not really done—**patience!** You still need
to wait 10 minutes. They say time flies,
but waiting for the flan to cool can be
quite a challenge.

This book, with its funny story and clever
illustrations, invites children to talk
about the importance of waiting. The
concept of patience can feel abstract
and unclear for young kids. This picture
book will surely help them understand it
and realize that not everything happens
right away.

"What happens when someone feels they need to change to be accepted by others?

That's exactly what happens to Blanca. She tries hard to be like everyone else, to the point of becoming completely exhausted. With the help of her siblings, Blanca will discover that being herself is not only valuable but that true inclusion means everyone working together to create a space where each individual can be authentic.

This story invites us to see inclusion as a shared journey where everyone learns and adapts so that each person, with their own uniqueness, can find their place."
